Commissioner for Patents

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The header --BRIEF DESCRIPTION OF THE DRAWINGS--, which applicant directed to be entered on page 3 of the specification after line 33, will be entered on page 3a after line 25 because the amendment of the specification in the international stage of PCT processing changed the location of the brief description.

Lines 1-6 on page 4 of the specification are deleted because they duplicate lines 31-36 on page 3a.

Since the amendments are addressed to formal issues only and do not affect the scope of the patent, no authorization from the applicant is required.
